

Learn from Mission Cities and propel your city's climate neutrality journey!

Is your city ready to achieve climate neutrality? Are you a city representative eager to drive climate action? The Cities Mission Platform, managed by NetZeroCities, offers unique opportunities for peer learning with Mission Cities and access to a wealth of online resources—all designed to support cities committed to a climate-neutral future. Start your transformative journey today by learning from the Mission Cities paving the way.

ABOUT THE MISSION PLATFORM

As part of the **EU Cities Mission**, the Mission Platform managed by NetZeroCities has been supporting **112 Mission Cities** selected by the European Commission as they strive to reach climate neutrality by 2030. Building on this work, we are now extending peer-learning opportunities and access to online resources via the NetZeroCities Portal to all cities across Europe and Horizon-associated countries that are not part of the 112 Mission Cities but aim to advance towards climate neutrality.

This supports the EU Cities Mission's second objective: **ensuring that Mission Cities act as hubs of experimentation and innovation, enabling all European cities to become climate-neutral by 2050.**

WHAT'S IN IT FOR YOUR CITY?

Accelerate your climate action! The Mission Platform provides your city with exclusive access to:

- **Peer-learning opportunities**, such as twinning programs and study visits with Mission Cities.
- A suite of tools, resources, and collaborative services through the **NetZeroCities Portal**.
- **The Climate Transition Map**, a strategic tool guiding cities across sectors to overcome challenges and achieve climate neutrality.
