

# Voices for a greener future

## Bacău - Romania

### Short description

The Local Green Deal in Bacau supports the city's transition towards sustainability by integrating creative and cultural activities with environmental awareness. Through the "Sing&Joy" Children's Choir initiative, in collaboration with Bacau Municipality's Horizon Hub, the LGD promotes ecological education through music and community engagement. By repurposing an abandoned building into a co-working hub for the creative sector and supporting eco-themed musical performances, the LGD aims to inspire a greener cultural movement in Bacau.

### Industry/Sector

- Culture & creative industries

### Parties of LGD/Participating parties

- Bacau Municipality
- Sing&Joy Children's Choir

### Scope of LGD

- The scope of the LGD in Bacau is to foster a creative, sustainable community by promoting environmental awareness through music. A former cinema building is being repurposed into a co-working hub for creative start-ups, with the Sing&Joy choir as one of the key cultural drivers. The initiative engages children, families, and the broader public through free concerts, educational activities, and artistic performances focused on ecological themes, contributing to the city's long-term sustainability and inclusiveness goals.

## Concrete measures/commitments

### **Sing&Joy Children's Choir commits to:**

- Incorporate sustainability themes in its musical programming.
- Deliver two free public concerts with an eco-themed repertoire using environmentally conscious staging and costumes.
- Raise awareness about climate and pollution issues through artistic expression.

### **Bacau Municipality commits to:**

- Provide free access to rehearsal and performance spaces.
- Promote the initiative via municipal media, school networks, and event support.
- Help expand participation and visibility of the project across Bacau's Horizon Hub and education ecosystem.
