

Renew Kozani

Kozani - Greece

Short description

The Project aims to promote the adoption and expansion of renewable energy in Kozani, to support the Municipality's objective of achieving climate neutrality by 2030. The scope of the agreement will address both the technical and organizational aspects of the project, including public education campaigns, stakeholder engagement, and the provision of sustainable energy solutions to residents.

Industry/Sector

- Energy & renewables

Parties of LGD/Participating parties

- Energy Community of the Municipality of Kozani (Public Administration)
- Regional Development Fund of Western Macedonia (Public Administration)
- University of Western Macedonia (Academia)

Scope of LGD

- Promote the use of renewable energy through public outreach, educational campaigns and engagement with local businesses and households to switch to clean energy solutions.
- Work in partnership with various local and regional stakeholders to ensure compliance with energy regulations and enhance the capacity of Kozani to achieve its renewable energy and climate action targets.

Concrete measures/commitments

- The Project aims to promote the adoption and expansion of renewable energy in Kozani, to support the Municipality's objective of achieving climate neutrality by 2030.

Smart Mobility Pact

Kozani - Greece

Short description

The Municipality of Kozani is committed to promoting sustainable and smart mobility through various initiatives. This includes an awareness-raising campaign to highlight the environmental, health, and economic benefits of sustainable transportation. Additionally, the municipality will develop a smart parking platform and a mobile application, incorporating essential technologies such as sensors and management equipment. Furthermore, an event will be organized to inform and engage the public, raising awareness of the numerous advantages of sustainable and smart mobility.

Industry/Sector

- Mobility & transport

Parties of LGD/Participating parties

- Regional Development Fund of Western Macedonia (Public Administrations)
- University of Western Macedonia (Academia)

Scope of LGD

The Smart Mobility Pact will focus on:

- Promoting sustainable and smart mobility through public outreach, educational campaigns and engagement with local community.
- Work in partnership with various local and regional stakeholders to implement relevant actions and events to help Kozani achieve its climate neutrality targets.
- Policy advocacy and regulatory support to ensure the successful integration of smart mobility into the city's transport network.

Concrete measures/commitments

- The Municipality of Kozani integrates responsible environmental and social practices into its operations and uses Local Green Deals (LGDs) as a strategic governance approach to accelerate sustainability action at the local level, in line with the goals set by the European Green Deal.
- The Municipality of Kozani as a proud member of the EU Mission of 100 Climate Neutral and Smart Cities by 2030, seeks to achieve the goals set by the City's "Sustainable Energy Climate Action Plan (SECAP)" and "Climate City Contract - 2030 Climate Neutrality Action Plan of the Municipality of Kozani".
