

Method Finder

Find the Right Method for Your Context

A visual tool that links your design choices to practical engagement methods. It provides an overview of 15 suggested methods, organized by how participants are involved and how much say they have. You'll also see estimated cost, duration, ideal group size, and which target groups each method reaches, helping you turn your ideas into actionable strategies that fit your context. For more information on each method, see the Method Cards.

- method suitable for marginalised publics
- methods open for everyone
- affected demographics
- method using representative samples
- methods used for < 50 participants
- methods used for 50+ participants
- methods for 100+ participants
